EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dolezal on 02/21/06.

IN THE SPECIFICATION

On page 1, line 6, after "Background of the Invention" insert a new line

-- This application is a continuation of U.S application 09/893,025, now abandoned. --

IN THE CLAIMS

Claim 51, at the line before the last line of claim 51, insert -- at the surface of the substrate -- after "floating region".

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Claims 44, 56 and their dependent claims are allowed over prior art of record for the same reasons noted in the previous Office action.

As for claim 34, convinced by applicants' argument that the meaning of the term "lateral" relates to a direction to the side of an object (e.g. left, right) and not to the top

or bottom of an object, the rejection of claim 34 over Tung is withdrawn because the floating region 219 is located only underneath region 228 and not to the side hence one skilled in the art would not consider region 219 to be laterally located with respect to region 228. Accordingly, claim 34 and its dependent claims are allowed over prior art of record.

For claim 51, the amendment made to claim 51 as noted in the Examiner's amendment overcomes the rejection of claim 51 over Tung because the right most floating region 219 located between the non-electrically conductive region 228 and the drain region 244 is positioned below the surface of the substrate and not at the surface of the substrate as now called for in claim 51. Accordingly, claim 51 and its dependent claims are allowed over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
